

# HACK-A-DREAM

A VIRTUAL INTERNSHIP FAIR

A WEEK-LONG VIRTUAL HACKATHON TO BUILD  
INNOVATIVE SOLUTIONS TO THE REAL TIME PROJECTS AND  
WIN INTERSHIPS

# WHAT IS HACK-A-DREAM ?

According to a study by Aspiring Minds, 80% of Indian engineers do not have suitable skills to get employed in the knowledge economy, which is a devastating number, given the quality of Institutions and Companies emerging out of this country. Acknowledging this scenario DTlabz R&D Pvt. Ltd. in collaboration with Sahyadri College of Engineering and Management is organized a Virtual Internship Fair: Hack-A-Dream, for Engineering students in sectors like Data Science and Full Stack Development. Hack-A-Dream hosted a week-long hackathon on real-time projects pitched by companies working. The shortlisted teams then participated in a 1 on 1 interview with the companies looking to offer an Internship based on their solutions. The event primarily focused on getting students Industry ready by giving them first-hand exposure from companies.
